TRUSTEES RECOMMEND 13.1% INCREASE IN FACULTY SALARIES

An average 13.1 per cent increase in salary and fringe benefits for faculty in the California State University and Colleges was recommended last week by the Board of Trustees.

The Board's Committee on Faculty and Staff Affairs approved a revision in requests, originally made last September, in an effort to bring the CSUC faculty salaries into line with comparison institutions elsewhere in the country and to keep pace with the current rapid cost of living increases.

The Governor's Budget, submitted to the Legislature last month, includes funding for a 5.45 per cent faculty salary increase and no increase in faculty fringe benefits although fringe benefit increases are recommended for other State employees, including CSUC non-academic employees.

The recent Trustees' resolution states that, in the event no funds are provided for the requested increase in fringe benefits, an increase of 13.16 per cent in salaries should be provided.

The Governor's Budget also includes \$1.4 million to permit the elimination of Class I-Class II salary differentials in the academic salary schedule. The Trustees' resolution urges legislative approval

ART GALLERY

Exhibit

Sculpture by W. R. Wolf-Rottkay will be on exhibit all this month in the Art Gallery. Organized especially for the CSCSB show by the artist, the sculpture is of stainless steel and welded metal, mostly of non-objective figures - although some have a suggestion of recognizable form - and simple geometric shapes.

Don Woodford, Gallery Director, states that Wolf-Rottkay is a young German-born Los Angeles sculptor who is getting some serious consideration as one of the upcoming, important sculptors. One of his large pieces will be shown at the Spokane World's Fair.

Prof. Woodford extends a special invitation to all CSCSB faculty, staff and students and their guests to attend the reception held for the opening tomorrow from 3 to 6 p.m.
